

SYSTECH INTERNATIONAL

6681 SOUTH COTTONWOOD, SUITE 1
MURRAY, UT 84107

Date: March 8, 2012

To: Joyce Fiore
DEM, RI

From: Frank Ofiero
SysTech International, LLC.

The following is a summary of the RI Vehicle Inspection Program audits performed by SysTech International in support of the documentation already delivered.

1. **Covert Vehicle Audits** – 50 Per Year Per Station – SysTech Performed 50 audits with a vehicle that was modified to fail as per the stated requirements. The audit documents have been delivered to DMV and DEM.
2. **Covert Visual Audits** – 1 Per Year Per Station – Systech performed 1/Year/Station for a total of 288 covert visual audits. The documents have been delivered to DMV and DEM.
3. **Overt Station Audits** – 1 Per Quarter Per Station – Systech performed quarterly audits for all stations each quarter, including inactive stations, for a total of 1200 overt station audits. Copies of the signed original documents have been delivered to DMV.
4. **Gas bench Audits** – 1 Per Year Per Station – Systech performed 286 gas bench audits in 2011, auditing all active stations. The documents are electronically maintained at the Systech Rhode Island office and a printed copy was submitted to DMV and DEM.
5. **VMAS Audits** – 1 Per Year Per Station – Systech performed 286 VMAS audits in 2011. Each VMAS was tested for calibration at the AIRS station and replaced with a tube that had undergone SAO calibration if required. The documentation is filed at the SysTech Rhode Island office.
6. **Data Audits** – During 2011, In addition to automated data analysis auditing, SysTech performed 508 data analysis audit requests from DMV that scanned the online emissions test database and/or the online emissions analyzer and reported via email notifications to DEM and DMV when a suspicious test occurred. SysTech supplied all the supporting documentation, the hearing forms used when the test station owners were brought to a hearing at DMV and suspended from testing.

COVERT AUDIT REPORT

STATION / INSPECTOR

Inspection Station:

Sta # 182 MIDAS AUTO SERV. EXPERTS
1307 Hartford Ave
JOHNSTON RI 02919
Phone#: 521-0760

Inspector:

CIT9273 Timothy Jean
1087 DEXTER ST
CENTRAL FALLS RI 02863

VEHICLE

Year Make Model: 2004 Dodge Stratus

Plate No.: 505294 **VIN:** 1B3EL36X94N22201 **Fuel Type:** Gas **Drive Type:** FWD

PRE-AUDIT VEHICLE CONDITION VERIFICATION

Date: 11/21/2011

Emmissions Result: Fail

Location: RI DMV

MIL Commanded: Fail

Safety Result: Pass

MIL Functionality: Fail

Fuel Cap Result: Fail

Description of Defects Present:

O2 sensor modified to fail

MIL bulb removed

O-ring removed from fuel cap

AUDIT RESULTS

Date: 11/21/2011

Inspection Result: Fail

Raised Vehicle On Lift? Yes

Inspection Observed? Yes

Inspector Appeared Knowledgeable? Yes

Emissions Inspection Performed Properly? No

Proper Inspector Performed Test? Yes

Proper Information Entered Into Analyzer? No

Proper Fuel Cap Inspection? No

Safety Inspection Performed Properly? Yes

Covert Auditor Identified? No

VIOLATIONS

Dashboard MIL result not entered properly

Gas cap visual inspection not performed properly, o-ring missing

Did not receive full VIR, missing pages 2, 4 and 5,

SysTech International

Motor Vehicle Emissions Program
Rhode Island

September 15, 2011

Subject: Improper testing notice

The emissions test results for the test sequence on the vehicle shown below indicate improper testing has been performed. This notice provides a test summary based on the detail test data report that is also available from SysTech for this test sequence.

Station Name: Courtesy Hyundai Inc
Station ID: ST000437
Inspector ID: CIT010350
Analyzer ID: SY020220
Vehicle VIN: 3VWCC21V82M804960
Vehicle Make: VOLKSWAGEN
Vehicle Model: CABRIO

Below is a description of the Systech International trigger report:

Test Date/Time - Date and time actual test has been performed.

Station ID - Inspection Station Identification Number.

Test Result - Vehicle pass or fail test results.

OBD VIN - The 17 character Vehicle Identification Number is stored in the vehicle onboard computer. Most vehicles since 2003 have started storing the OBD VIN. It is the same number as the VIN that is on the tag behind the windshield or in the barcode on the door. During a Vehicle emissions test, the OBD VIN number is transferred with the rest of the data and is displayed on the emissions analyzer computer screen.

Diagnostic Trouble Codes - Trouble codes that may be present in a vehicle.

Protocol - Communication patterns for a vehicle - This represents the computer language used by the particular on-board vehicle computer. Various companies use different computer languages for their vehicles. When reviewing a trigger report and comparing two tests on presumably the same vehicle, the protocol for each test must be the same. If two different protocols are listed for the two tests, there is no way that the same vehicle was used in both tests.

It is important to note though that in the event that the protocol is the same for the two tests; it does not necessarily mean that the same vehicle was used for both tests as two different vehicles may use the same protocol.

Readiness Monitor Mismatch - When reviewing a trigger report, if two tests are performed on the same vehicle, there should never be a U produced in addition to any other code. If a vehicle does not have a monitoring system (the vehicle returns a U), it would never return N, S or R.

"Example" EGR stands for exhaust gas recirculation. This is the monitoring system that is used by a vehicle to control nitrogen oxide that is produced by the engine. It is important to note that not all vehicles have an EGR system. If the vehicle does not have such a system, the test would result in a U.

U = **Unsupported**, meaning not manufacturer equipped.

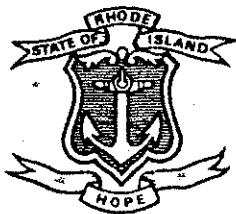

S = **Supported**, meaning manufacturer equipped.

R = **Ready**, meaning vehicle monitors have been set.

N = **Not Ready**, meaning vehicle monitors have not been set.

All OBD Parameters Match -

The OBD parameters are the PID count, the CVN, the CALID, and the ECUID from the detail report. **Yes** indicates a match, **No** indicates a non match.

Pawtucket, RI 02861

While working under the direction of John DiTomasso, Assistant Administrator, on September 20, 2011, I, Jonathan M. Pellegrino, Safety and Emission Control Inspector, investigated the following trigger report presented to me by SysTech International, against Courtesy Hyundai, Inc., station no. 437.

As evidenced on the trigger report, on 06/28/2011, at 11:30 AM, Courtesy Hyundai, Inc., inspected a 2002 VW Cabrio, VIN: 3VWCC21V82M804960 that failed emissions inspection, mileage 103420. On 06/28/2011, at 11:49AM, the same vehicle passed emissions inspection at Courtesy Hyundai, Inc., station number 437, by CIT 10350, James Senra, mileage 103430, with a protocol mismatch, and a ready monitor mismatch that suggest a fraudulent vehicle inspection has been performed.

This report is submitted for whatever action deemed necessary.

Respectfully,

Jonathan M. Pellegrino

Safety & Emissions Control Inspector

CONSUMER INFORMATION	
<p>You have completed the Rhode Island Emissions and Safety Test. The Overall Result indicates whether your vehicle has passed or failed the inspection. You have until the end of the month on your current inspection sticker to obtain repairs and a reinspection. You are entitled to one free reinspection after you have your vehicle repaired as long as you return to this station within 30 days. If you have any questions, please call (401)737-0556</p>

Diagnostic Fault Codes (DTCs)	
<p>Overall OBDII Test result will indicate failure if your vehicle's computer has detected a malfunction in one or more of your vehicle's emission control components. A MIL Commanded-On signal indicates your vehicle's computer has stored Diagnostic Trouble Codes(DTC). These codes(see list above if applicable) will assist your repair technician in identifying the cause of your failure.</p>

HEARING INFORMATION

Agenda Item No.: 2

Hearing Date: 2-22-2012

Case No(s): MVSEC 11-76 & 11-77

Against Station: No. 437 Courtesy Hyundai, Inc.

In business since: 7/9/2008

Responsible Agents: John Martins

Previous appearances/suspensions: None

Against Inspector: CIT 10350 James Senra

Inspector since: 5/24/2010

Previous appearances/suspensions: None

Narrative Summary:

Systech trigger reports suggest that on 6/28/2011 and 9/7/2011 fraudulent emissions tests may have been performed by plugging into a different vehicle to obtain passing electronic test results.

This station and inspector, by performing improper and fraudulent inspections, may be in violation of the rules and regulation set forth in the RI Official Manual for Vehicle Inspection, chapter 31-38 of the RI general laws and or Safety and Emission Control regulation No. 1.
